# REPORT

OF THE

## MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1940

---

*To the Chairman and Members of the  
Ogmore and Garw Urban District Council.*

Mr. Chairman, Ladies and Gentlemen,

I beg to submit for your consideration my report upon the vital statistics and sanitary circumstances of the Ogmore and Garw Urban District for the year 1940.

On the instructions of the Ministry of Health the present report is submitted in a curtailed form.

No reference is therefore made in the report to the many additional duties which have devolved upon the staff of the public health department as a result of the war, and it must suffice to state that these duties, additional and extraneous to the ordinary work of the department, have been efficiently performed by the staff at the expense of many hours of overtime.

The statistics submitted are based upon estimated population figures supplied by the Registrar-General, which take no account of the temporary increase in population caused by evacuation from other districts.

The estimated population is 23,160 persons: two figures are given for total births, viz. one (430) for calculation of birth-rate, and the other (447) for calculation of infantile mortality, etc.

The general death-rate is 12.9 and the birth-rate 18.6 per 1,000 of the population : the infantile death-rate is 65 per 1,000 live births, the still-birth rate is 37 per 1,000 total births, and the maternal death-rate 6.4 per 1,000 total births.

No extensive schemes of sanitary improvement were undertaken by the Council during the year, since all works of this character have had to be postponed until after the termination of the war.

In conclusion, I would bring to your notice the continued excellent work performed throughout the year by the Sanitary Inspectors, the Health Visitors, the Matron and Staff of the Isolation Hospital, and the Clerical Staff.

I am,

Yours faithfully,

**W. A. MURPHY,**

*Medical Officer of Health.*

The Council Offices,

Brynmenyn,

*August, 1941.*

Death-rate of infants under one year of age :—

|   |     |
|---|-----|
| All infants per 1,000 live births ... ..                    | 65  |
| Legitimate infants per 1,000 legitimate live births ...     | 70  |
| Illegitimate infants per 1,000 illegitimate live births ... | Nil |
| Deaths from Cancer (all ages) ... ..                        | 35  |
| Deaths from Measles (all ages) ... ..                       | Nil |
| „ „ Whooping-cough (all ages) ... ..                        | Nil |
| „ „ Diarrhoea (under 2 years of age) ... ..                 | 3   |
| „ „ Cerebro-spinal Fever (all ages) ... ..                  | 4   |

## II.—General Provision of Health Services in the Area.

No developments or changes in the health services in the area occurred during the year.

### ISOLATION HOSPITAL.

During 1940, 244 patients, amongst whom 11 deaths occurred, were admitted to the Blackmill Isolation Hospital.

### HEALTH VISITORS.

Number of visits paid by the Health Visitors during 1940 :—

(a) To expectant mothers—

(1) First visits, 342 ; (2) Revisits, 772 ; (3) Total visits, 1,114.

To children under one year of age—

(1) First visits, 482 ; (2) Revisits, 1,418 ; (3) Total visits, 1,900

|                                    |              |     |     |     |       |
|------------------------------------|--------------|-----|-----|-----|-------|
| (c) To children 1 to 5 years.      | Total visits | ... | ... | ... | 3,712 |
| Orthopaedic visits                 | ...          | ... | ... | ... | 174   |
| Ophthalmia visits                  | ...          | ... | ... | ... | 7     |
| Tuberculosis visits                | ...          | ... | ... | ... | 813   |
| Miscellaneous visits and enquiries | ...          | ... | ... | ... | 139   |

### CHILD LIFE PROTECTION.

There are seven children in the district adopted for reward, to whom regular visits are paid by the Health Visitors.

### MATERNITY SERVICES.

76 maternity cases were admitted to the Glamorgan County Hospital, Bridgend, under the Council's auspices during the year.

### III.—Sanitary Circumstances of the Area.

No developments in the drainage, sewerage and water supply in the area occurred during the year.

#### SANITARY INSPECTION OF THE AREA.

The number of inspections and re-inspections made during the year were as follows :—

|  |     |     |      |
|--|-----|-----|------|
| Inspections under the Housing Acts...                    | ... | ... | 12   |
| "    "    "    Public Health Acts                        | ... | ... | 2042 |
| Revisits to premises under repair                        | ... | ... | 967  |
| Investigations and visits in cases of infectious disease | ... | ... | 395  |
| Inspections of slaughter-houses and slaughtering         | ... | ... | 736  |
| Bakehouses   | ... | ... | 50   |
| Cinemas  | ... | ... | 104  |
| Ice-cream vendors' premises...                           | ... | ... | 42   |
| Schools and public buildings                             | ... | ... | 366  |
| Workshops  | ... | ... | 159  |
| Butchers' shops  | ... | ... | 139  |
| Under Shops' Acts  | ... | ... | 983  |
| Special complaints investigated                          | ... | ... | 629  |
| Drains tested and relaid                                 | ... | ... | 109  |
| Premises disinfected                                     | ... | ... | 304  |
| Samples of water collected for analysis                  | ... | ... | 22   |
| "    "    milk collected for bacteriological examination | ... | ... | 63   |
| "    "    milk tested for sediment                       | ... | ... | 102  |

#### FACTORIES ACT, 1937.

The following table sets out the number and classification of Factories in the district :—

##### A. FACTORIES WHERE MECHANICAL POWER IS EMPLOYED.

|                    |     |     |     |   |
|--------------------|-----|-----|-----|---|
| Printing Works     | ... | ... | ... | 3 |
| Bakehouses         | ... | ... | ... | 9 |
| Boot Repairs       | ... | ... | ... | 7 |
| Electricity        | ... | ... | ... | 2 |
| Mortar Mills       | ... | ... | ... | 1 |
| Pasteurising Plant | ... | ... | ... | 1 |

## B. FACTORIES WHERE NO MECHANICAL POWER IS EMPLOYED.

|                     |    |
|---------------------|----|
| Boot Repairs ... .. | 8  |
| Dressmaking ... ..  | 7  |
| Carpentry ... ..    | 10 |
| Tailoring ... ..    | 2  |
| Bakehouses ... ..   | 6  |
| Smithies ... ..     | 3  |
| Watchmakers ... ..  | 4  |
| Garages ... ..      | 2  |
| Plumbers ... ..     | 2  |

**IV.—Housing.**

No proposals were made by the Local Authority in 1940 for the erection of additional houses: the 210 houses owned by the District Council were all in occupation on 31st December. The difficulty in obtaining the necessary supplies of building materials has materially interfered with the progress of housing repairs.

Several instances of overcrowding were brought to notice during the year: it was not easy to remedy this overcrowding since the available accommodation in the area is already over-taxed as a result of the immigration into the district of persons from evacuation areas.

The following table summarises the work of the Sanitary Inspectors during the year in so far as housing duties are concerned:

**HOUSING INSPECTIONS.**

## 1.—Inspections of dwelling-houses during the year:—

- (1) Total number of houses inspected for housing defects and the number of inspections made ... .. 2,049 and 2,651
- (2) Total number of houses inspected and recorded under the Housing Regulations.... 12
- (3) Number of houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation ... .. 1
- (4) Number of dwelling-houses found not to be in all respects fit for human habitation ... 877

2.—Remedy of defects during the year without service of formal notice :—

|  |     |     |     |     |     |     |
|--|-----|-----|-----|-----|-----|-----|
| Number of houses rendered fit in consequence of informal action by the Local Authority or their Officers | ... | ... | ... | ... | ... | 459 |
|--|-----|-----|-----|-----|-----|-----|

3.—Action under Statutory Powers :—

|                                    |     |     |
|------------------------------------|-----|-----|
| (1) Proceedings under Housing Acts | ... | Nil |
|------------------------------------|-----|-----|

|   |  |
|---|--|
| (2) Proceedings under Public Health Acts :— |  |
|---|--|

|   |     |     |     |     |     |
|---|-----|-----|-----|-----|-----|
| (a) Number of dwelling-houses in respect of which notices were served requiring repairs | ... | ... | ... | ... | 222 |
|---|-----|-----|-----|-----|-----|

|  |     |     |     |
|--|-----|-----|-----|
| (b) Number of dwelling-houses in which defects were remedied | ... | ... | 209 |
|--|-----|-----|-----|

4.—Number of houses demolished :—

No demolition or closing orders in respect of any premises were made during 1940.

## V.—Inspection and Supervision of Food.

### MILK SUPPLY.

Routine inspections of farms and dairies were carried out during the year and samples of graded and ungraded milk were sent regularly for bacteriological examination. The premises licensed under the Milk (Special Designations) Orders, 1936 and 1938, are regularly inspected and supervised.

### MEAT.

The centralisation of slaughtering in two slaughterhouses in the district has proved a distinct advantage in facilitating the work of meat inspection.

It is to be hoped that the present system will be continued after the war.

The following table sets out the amount of meat seized, condemned and disposed of as unfit for human consumption during the year :—

### Carcases Inspected and Condemned.

|  | Cattle, ex-<br>cluding cows | Cows | Calves | Sheep &<br>Lambs | Pigs |
|--|-----------------------------|------|--------|------------------|------|
| Number killed ... ..   | 659                         | 145  | 184    | 6665             | 747  |
| Number inspected ... ..  | 627                         | 131  | 176    | 5853             | 707  |
| <i>All diseases except Tuberculosis.</i>   |                             |      |        |                  |      |
| Whole carcases condemned ...   | 0                           | 0    | 0      | 16               | 0    |
| Carcases of which some part<br>or organ was condemned ...                                    | 75                          | 64   | 0      | 712              | 30   |
| Percentage of the number in-<br>spected affected with disease<br>other than Tuberculosis ... | 12%                         | 5%   | ...    | 12.4%            | 4.2% |
| <i>Tuberculosis only.</i>  |                             |      |        |                  |      |
| Whole carcases condemned ...   | 5                           | 6    | ...    | ...              | 12   |
| Carcases of which some part<br>or organ was condemned ...                                    | 44                          | 41   | ...    | ...              | 23   |
| Percentage of the number in-<br>spected affected with Tuber-<br>culosis ... ..               | 7.8%                        | 36%  | ...    | ...              | 5%   |

Police Court proceedings were instituted against one butcher for offences against the Public Health (Meat) Regulations, 1924, and the Food and Drugs Act, 1938 : on conviction, fines amounting to £10 were imposed.

### OTHER FOODS.

Unsound food condemned :—

Fruit, 50lbs. ; imported meat, 445lbs.

## VI.—Notifiable Diseases during the Year 1940.

| Disease                  | No. of<br>Cases<br>Notified | No. of Cases<br>Admitted<br>to Hospital | Total<br>Deaths |
|--------------------------|-----------------------------|---|-----------------|
| Scarlet Fever ....       | 224                         | 120                                     | ...             |
| Diphtheria ....          | 67                          | 67                                      | 4               |

## DIPHTHERIA IMMUNISATION,

The work of diphtheria immunisation was continued in the district during the last four months of 1940.

The antigen used was toxoid-anti-toxin floccules in three injections of 1c.c. at intervals of one week. Children under 8 years of age were immunised without a pre-Schick test; children over 8 were Schick-tested before immunisation. The results were as follows:—

T.A.F.

No. of children under 8 immunised without pre-Schick test 130  
Not completed ... .. 8

Four of these children, whose immunisation course had not been completed, contracted mild attacks of diphtheria.

CHILDREN OVER 8

Pre-Schick Test—61. Negative—40. Positive—21. Immunised—21

## DIPHTHERIA IN IMMUNISED CHILDREN.

| Case No. | Pre-Schick Test  | Dates of Immunisation | Post-Schick test | Type of disease                       |
